# heresy

**Heresy - a belief different from the accepted belief. “of GOD ?” and “NATURE’S MEND ...” are different from current religious beliefs and physics theory in a very small way, smaller than you may ever imagine; and in a very large way larger than you may ever imagine.**

**“It is the customary fate of new truths to begin as heresies!” as stated by Thomas Henry Huxley a famous Zoologist from the 1800’s. [I need to read his works!]**

**Henry Wadsworth Longfellow noted, “It is curious to note the old sea-margins of human thought. Each subsiding century reveals some new mystery; we build where monsters use to hide themselves.”**

**Its been 100 years since Einstein's Relativity**

**And that’s what “of GOD ?” and “NATURE’S MEND ...” is doing, building (shining light) where current religious and physics theory hide themselves: in the dark!**

**“Imagination is more important than knowledge!”**

**I invite you to step into a great light, not of religion, not of man, but of GOD & NATURE that can give you a feeling of warmth and comfort.**

# RELATIVE COMMENTS FROM PAST PRESENTATIONS

- **“The Existential Lives of Believers and Atheists” By Clay Routledge.**

**“Both atheists and religious people were no different in sweat (conductance on skin) response when invoking GOD to do bad things.”**

**I think this is a bench mark of the fear of the unknown, “of GOD ?”. No one is sure about GOD !**

- **“The Realities of Heaven and Hell” By Rebeca Rude**

**“Near death he saw his friend playing golf with jesus!”**

**Post Note: Fargo & NDSU lost a great announcer in Scotty Miller recently. On WDAY radio Sandy Buttweiler was talking about how she comforted Scotty on his death bed by telling him that her brother who passed away from cancer would be waiting for him in heaven. She told Scotty he would know him by his red hair. She said in made Scotty smile.**

**Sorry no golf with jesus or seeing others in heaven. There are only “HOLY ANGELS” with GOD.**

- **“My Muslim Journey” By Fauzia Haider**

**Muslims believe judaism lost GOD and now islam has GOD. Or is the WAY to GOD. Violates 9TH Law of GOD!**

# MORE COMMENTS FROM PAST PRESENTATIONS CONTINUED

- “Christians, Muslims, and Hospitality” By Dan Heath

“We need to welcome strangers openly as in the bibles many examples. He was proposing interfaith hospitality.”

In my opinion Mr. Heath was misinterpreting “Strangers” from scripture. Strangers are those in Hebrew times that were seeking GOD, but were not part of the 12 tribes. They were to be welcomed as “NATIVE” to GOD.

- “On going child abuse controversy among Jehovah’s witnesses.” By Adam Hechathorn

This is the same with the Catholics when the Vatican suggests to the bishops, that they not report child abuse but allow the victims to bring the charges.

Religions will protect themselves over all else.

## POST NOTES:

Why do so many people blame GOD when bad things happen?

Because religion has taught them “GOD will take care of you!”

What did GOD say about these people?

“But they mocked the messengers of GOD and disdained HIS WORDS and taunted HIS Prophets until the wrath of the LORD against HIS people grew beyond remedy.” II Chronicles 36.12 (Tanakh)

The 8 TH verse from the end. 8 being a code number for circumcision. GOD circumcised HIS people from him.

“...but its mortal wound was healed, and the whole earth followed the beast with wonder.” Revelations 13.3

**judaism – the beast of the sea! The first 6 of 666!**

## what is religion –

**“a pursuit or interest to which someone ascribes supreme importance.”**

**I believe it applies to all four of the religions I’ve listed!**

## **Extra caveats for the Religion of Science –**

**Knowledge based on observed facts and tested truths arranged in an orderly system: the laws of science, pure science. Science is verified knowledge; that is, knowledge that can be validated and communicated to other people.**

**What happens when observed facts can’t be explained by the theory? Its happening more and more today with gravity!**

## **GOD –**

**“a ~~superhuman~~ super-energy being or spirit worshiped as having power over nature or human fortunes; a deity.”**

# IN THE BEGINNING their god BEGAN TO CREATE

judaism – in the beginning yahweh god began to create!

christianity – in the beginning father god began to create!

islam – in the beginning allah god began to create!

science – They think in current theory the father god “higgs mechanism” began to create!

# who are these religious gods ?

## **judaism –**

**the religion of the law god. Born out of everything by the law and the edict of Xerxes king of Persia 6TH Century BCE lead by Ezra. The religious leaders discarded women & children!**

## **christianity –**

**the religion of the triune god of a father – son – spirit. Born 1ST Century CE of death and exhumation by Saul who became Paul. The religious leaders murdered Ananias and his wife over money and wouldn't let women lead!**

## **islam –**

**the religion of the prophet god. Born 6TH Century CE out of old ones, a new one, and Muhammad by Muhammad. First caliph – Abu Bakr called for jihad (holy war) on non-islamic peoples! The other caliphs continued his call! Just look at how they treat women!**

## **science –**

**the religion of the laws of observation, experiment, and mathematics. Influenced by too many to name. Scientists are typically very slow to act on new ideas. No wonder Fritz Zwicky thought his counterparts to be “spherical bastards”. He said this because no matter how you looked at them he thought they were the same, like a sphere and were bastards (inferior - not genuine). They ignored his dark matter idea. Women continue to struggle to break into science!**

# What is the oldest profession in scripture “?”

astronomy – a branch of the religion of science!

“And GOD said let there be lights in the firmament of the heavens to separate the day from night; and let them be for signs and for seasons and for days of years,” Genesis 1.14. astronomy was born on the 4TH day of creation (a DAY of GOD not a day of humans).

Who started the stories about prostitution being the oldest profession in scripture – those other religions!

So the religion of science is the oldest of all religions and is SANCTIONED by GOD right out of scripture!

# How old is the earth ?

- Genesis 6.3 Then the LORD said, “MY SPIRIT shall not abide in man forever, for he is flesh, but his days shall be 120 years.”
- Something is wrong here?
- Daniel 9.24 “Seventy weeks of years ...” A day is a year?
- So if a day is a year then 120 years times 365 results in the age of man of 43,800 years.
- Prior to Genesis 6.3 there are 2,506 consecutive years. Are these years of current sense or of the sense that a day is year. Or are they days of GOD?
- If a Day of GOD is 365 years of 365 years of men then a day of GOD is 133,407 years of men. 2,506 years times 365 days results in 914,690 days of GOD. 914,690 times 133,407 years men/ day of GOD and the earth could be 122 billions years old.
- the religion of science says that the earth is 4.5 billion years old with some basis on a zircon rock from Australia. That's 27 times less than 122 billion years old. Is the zircon rock from the earth or from outer space?

**DO WE REALLY KNOW HOW OLD THE EARTH IS ? OR THE AGE OF THE COSMOS ?**

**ITS WAY OLDER THAN 6000 YEARS !**

# SOME LAWS OF GOD

**1ST – “You shall have no other gods before or besides ME!”**

**So it is “You” & “GOD” and the “bad little gods” !**

**Satan – the first “bad little god” between man & GOD in the garden!**

**Is your faith in GOD?**

**Or do you have a religion between you & GOD?**

**2ND – “You shall not make for yourself a graven image, or any likeness of anything ...”**

**Six Pointed Star – Cross – Crescent Moon & Star**

**Graven images of j – c – i.**

**6TH – “You shall not kill!”**

**All j – c – i do is kill.**

**8TH – “You shall not steal!”**

**Look at the castles of j – c – i: who really benefits from the money? The religion and its leaders!**

**the religion(s) of**

**judaism – christianity – islam violate all of these.**

**the religion of science violates non of these.**

**However, some scientist argue there is no “GOD” !**

# ONE MORE LAW OF GOD

**9TH – “You shall not bear false witness against your neighbor”**

**the religions of**

**judaism – christianity – islam violate this one also.**

**Each of these religions claim they are the way to GOD and that the others are false.**

**science doesn't violate this one either.**

**However, most scientists reject crazy ideas without consideration. We know what Fritz Zwicky thought, The father of entropy, Ludwig Boltzmann committed suicide because of being rejected by peers.**

# Accomplices

The followers of judaism – christianity – islam will fight to the death for their religion so they are accomplices to the violation of the laws of GOD by their religions.

The followers of science are still trying to figure everything out about NATURE.

However, the current doctrine (Gravity Theory) of this religion seems to be moving further and further into the dark with more and more observations that can't be explained.

“..., we are clearly still missing the big picture. ... Facts so bizarre cry out for a deeper explanation. ... But a deeper understanding of the fundamental nature of space and time clearly remains one of the biggest and most intriguing challenges for physicists in the coming years.”

Dr. Lisa Randall's wondering on “What to Think?” from her book, “Warped Passages ...” Copyright 2005.

## DISCUSSED IN SCRIPTURE ?

“Do not trust in these deceptive words; ‘This is the temple of the LORD, the temple of the LORD, the temple of the LORD.’ “  
Jeremiah 7.4. Three times “the temple of the LORD”

“Not every one who says to ME, ‘LORD, LORD’ shall enter the Kingdom of Heaven, but he who does MY WILL. On that day many will say to ME, ‘LORD, LORD, did we not prophesy in YOUR NAME, and cast out demons in YOUR NAME, and do many mighty works in YOUR NAME?’ And I will declare to them, ‘I never knew you; depart from ME you evildoers.’ ”  
Mathew 7.21 – 23. Three times “did we not in YOUR NAME”

And they are also discussed in Revelations Chapter 13 about the three beasts; the number 666; and the number 616. Three Beasts – See Pages 515 – 526 in my journal “of GOD ?”

Revelations Chapter 16 verses 13 & 14: “And I saw, issuing from the mouth of the dragon and from the mouth of the false prophet, three foul spirits like frogs; for they are demonic spirits, performing signs, who go abroad to the kings of the whole world, to assemble them for the Great Day of GOD.”  
“Three foul spirits” Are j – c – i not at foul war play today ?

Revelations Chapter 16 verses 17, 18 & 19: “The Seventh Angel poured his bowl into the air, and a Great Voice came out of the temple, from the throne, saying. ‘It is done!’ And there were flashes of lightning, loud noises, peals of thunder, and a great earthquake such that had never been since men were on the earth, so great was the earthquake. The Great City (Jerusalem) was split into three parts, and the cities of nations fell, and GOD Remembered great Babylon, to make her drain her cup of the fury of HIS Wrath.” “Split into three parts”

# WHAT DO THESE MEAN?

**“the Temple of the LORD” – three religions j – c – i that claim ownership of GOD and that their houses are the temple of the LORD! “Don’t trust them!”**

**“did we not in YOUR NAME” – Three Religions of j – c – i claim to do mighty works in GOD’S NAME! “They work in the name of their religion!”**

**“666” – The mineral of GOD is salt. A perfect cube with six physical facets and one facet of essence.**

**So if j – c – i have GOD their numbers should be 7, 7, 7. But because they violate the laws of GOD they don’t have the essence of GOD so their numbers are 6, 6, 6. And conjoining in “interfaith” services fulfills the number as 666.**

**“616” – it is the birth centuries of j – c – i.**

**“Three foul spirits” – Three religions violating the LAWS of GOD in support of Satan’s conquest of souls and killing each other today!**

**“The Great City (Jerusalem) was split into three parts” – This is true today by the three religions of j – c – i claiming ownership of different parts of this city! And it will be divided and destroyed in the end because of these three foul spirits.**

**The only good religion seems to be science!**

# WHERE'S THAT LEAVE SCIENCE VS GOD

**Does science need to answer the question “of GOD?” ?**

**If there is no GOD does that add value to the religion of science?**

**If there is a GOD does that add value to the religion of science?**

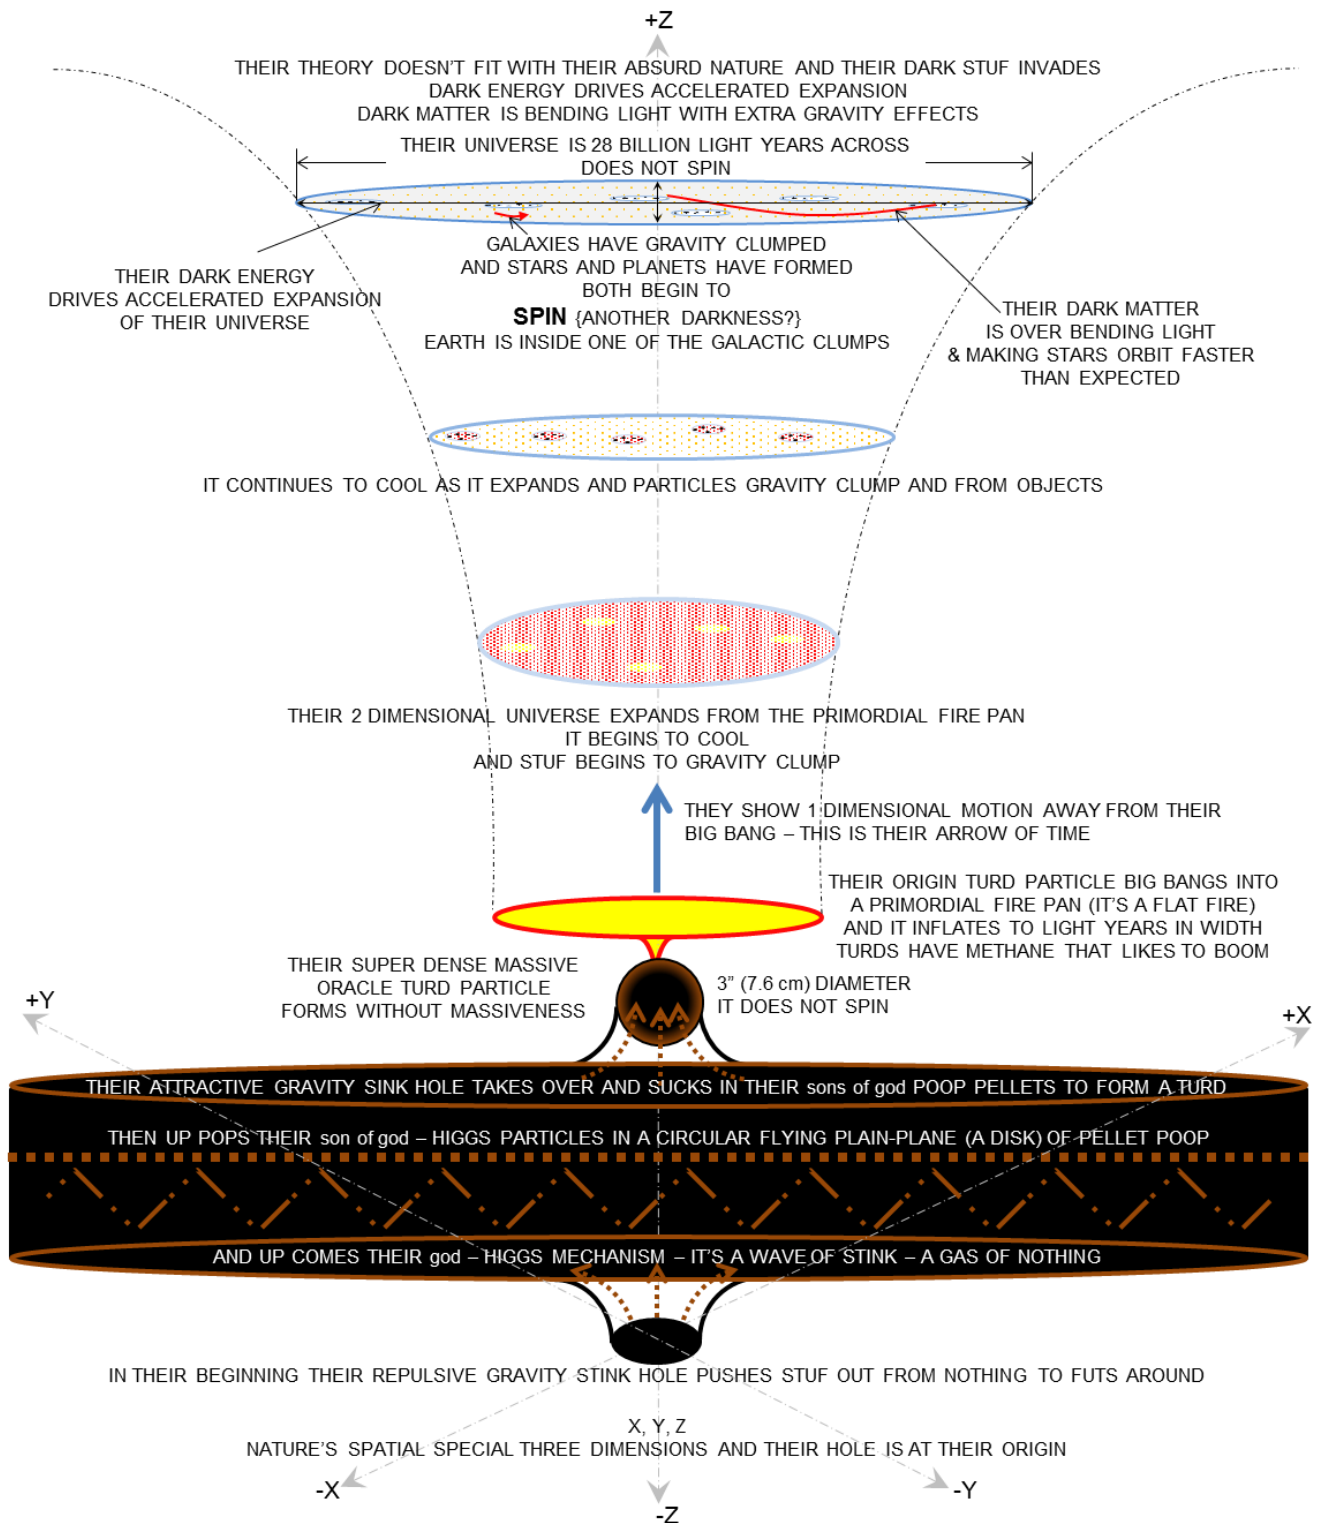

**The answer to both of these is: NO! GOD should be left up to each individual to figure HIM out in fulfillment of GOD’S First Commandment and GOD’S GIFT of “Free Will”!**

**Let’s adventure into the religion of science and some unknowns. Then make a couple of doctrinal changes and see what happens.**

# **SOME UNKNOWNNS IN THE CURRENT RELIGION OF SCIENCE**

- 1. What was the COSMOS before the big bang?**
- 2. Where does particle mass come from?**
- 3. What causes the flatness of space?**
- 4. What is gravity?**
- 5. What is dark energy?**
- 6. What is dark matter?**
- 7. What is time?**
- 8. Is there an end?**
- 9. Is there a GOD?**

**Lets take a look at the current 2D model of the COSMOS**

## CURRENT THEORY COSMIC CREATION CONCEPT

Figure E.2 Figure 5.1

# DOCTRINAL CHANGES TO THE RELIGION OF SCIENCE ONLY TWO

- Instead of a teeny tiny start, everything that ever existed, existed in the beginning as a singular giant sphere on the order of 120 billion light years in diameter with two additional forces stronger than the strong.
- Instead of elementary point particles that don't really spin the elementary particles of a quark and an electron really do have a physical diameter and really do spin in the real world.
- Let's see what happens.

# IN THE BEGINNING – SORT OF

- All of the COSMOS was a single perfectly spherical origin particle 120 billion light years in diameter containing all matter and energy and it was spinning. Entropy is at a minimum. **1ST Unknown: Before the Big Bang Answered!**
- As the fusion process with two stronger forces converting pure energy to matter and creating elementary quark particles, then electrons, and elements the Origin Particle's spin increases and internal entropy increases.
- Close contact of 3 quarks spinning births an electron with opposite charge at the core of the 3 quarks. A mass ratio of a q to e is around 620 which is in the magnitude of what is expected from current experiment. **2ND Unknown: Particle mass Answered!**
- Because of its spinning speed increasing the origin particle flattens out and becomes a spinning disc with an equatorial thermo-nuclear shape charge.
- As the disc pulsates in and out because of the natural process of liquefaction of pure energy converted to matter a detonation trigger is reached at maximum internal entropy and a Big Bang occurs.
- Because of the equatorial shape charge the COSMOS is born into a flat spinning plane with external entropy at a minimum. Rapid inflation occurs along the x and y coordinates due to directed detonation and centrifugal sling, but is very limited in the z. **3RD Unknown: Flatness of Space Answered!**
- The detonation energy and the centrifugal energy released at the Big Bang are still dissipating today as external entropy approaches a maximum and pressure (vacuum) energy approaches zero. **A hint at dark energy!**

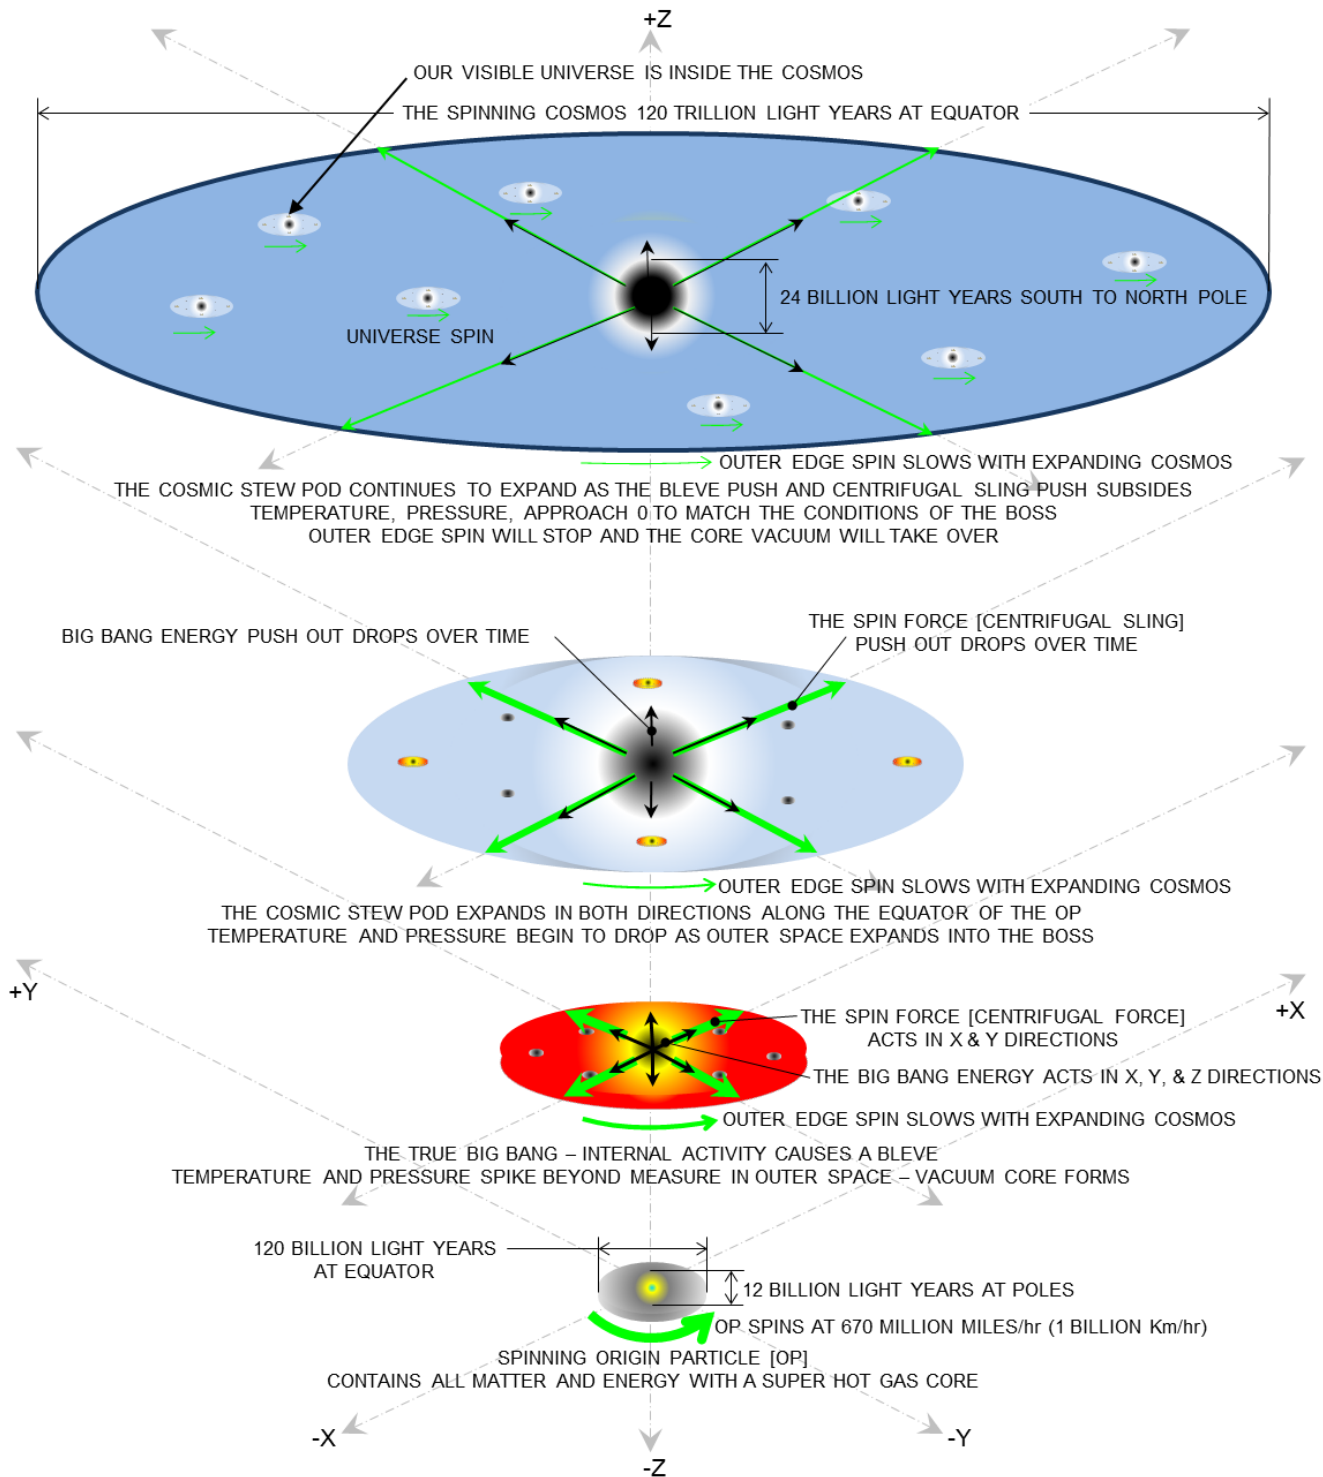

# ADDRESSING MORE UNKNOWNNS AS TIME PASSES

- Gravity is not a distortion of a two dimensional space-time blanket, but the effect of three dimensional boundary layers of objects speeding through the COSMOS on curved pathways under constant acceleration. Einstein's Equivalence Principle of gravity = accelerated motion. The tidal effects on earth can be replicated by interrupting external influences on earths boundary layer. Gravity is not a force, it is an observed effect! Dynamic motion of boundary layers is the cause! 4TH Unknown: Gravity Answered: as a force it doesn't exist!
- Dark energy becomes the pressure effects of the directed detonation and centrifugal sling from the Big Bang and Spin of the Origin Particle. When dark energy reaches zero external entropy is at a maximum. 5TH Unknown: Dark Energy Answered!
- Dark matter is the observed effects of directed detonation and centrifugal sling of its associated little bang and dark energy compression from the Big Bang on an objects boundary layer. Like its gravity cousin dark matter is an effect. 6TH Unknown: Dark Matter Answered!
- At the core of the of the origin particle (0, 0, 0) and most other systems an active vacuum condition exists created by the directed detonation and centrifugal sling at their associated bang. Black holes become vacuum Dark Holes and have no mass. There is no gravity required for a Dark Hole!
- The vacuum takes affect and influences matter and energy near the core of the origin particle but not in the rapid inflation zone of the expanding COSMOS.

# NATURE'S MEND

## Matter – Energy – and - Dynamics

- She has everything she needs in the beginning! No mystery!
- Her spinning and detonation places everything into space spinning.
- Spinning clumps will form discs and spheres in space.
- Galaxies and solar systems need not come together by gravity. They only need time to spin into shape. This explains ancient galaxies that have been discovered that are too old for the gravity theory.
- TIME becomes independent of all activity in the COSMOS . So everything depends on TIME.
- Lets take a look at NATURE'S MEND 3D COSMIC model.

## NATURE'S MEND COSMIC CREATION PROCESS

Figure E.1 Figure 5.2

# ADDRESSING MORE UNKNOWNNS AS TIME PASSES

- The acceleration of the COSMOS is caused by dark energy, but the value of dark energy is very small. What happens when the value of dark energy reaches zero. Acceleration stops and the Origin Dark Hole vacuum energy reaches out into the COSMOS and a collapse begins the return of all matter and energy to (0, 0, 0) to form a new Origin Particle.
- The COSMOS then cycles on an entropy wave over TIMES ARROW. There is no actual end it just repeats itself over and over. 7TH & 8TH Unknowns: of what is time and is there an end are Answered!
- Lets take a look at a grand model of this.

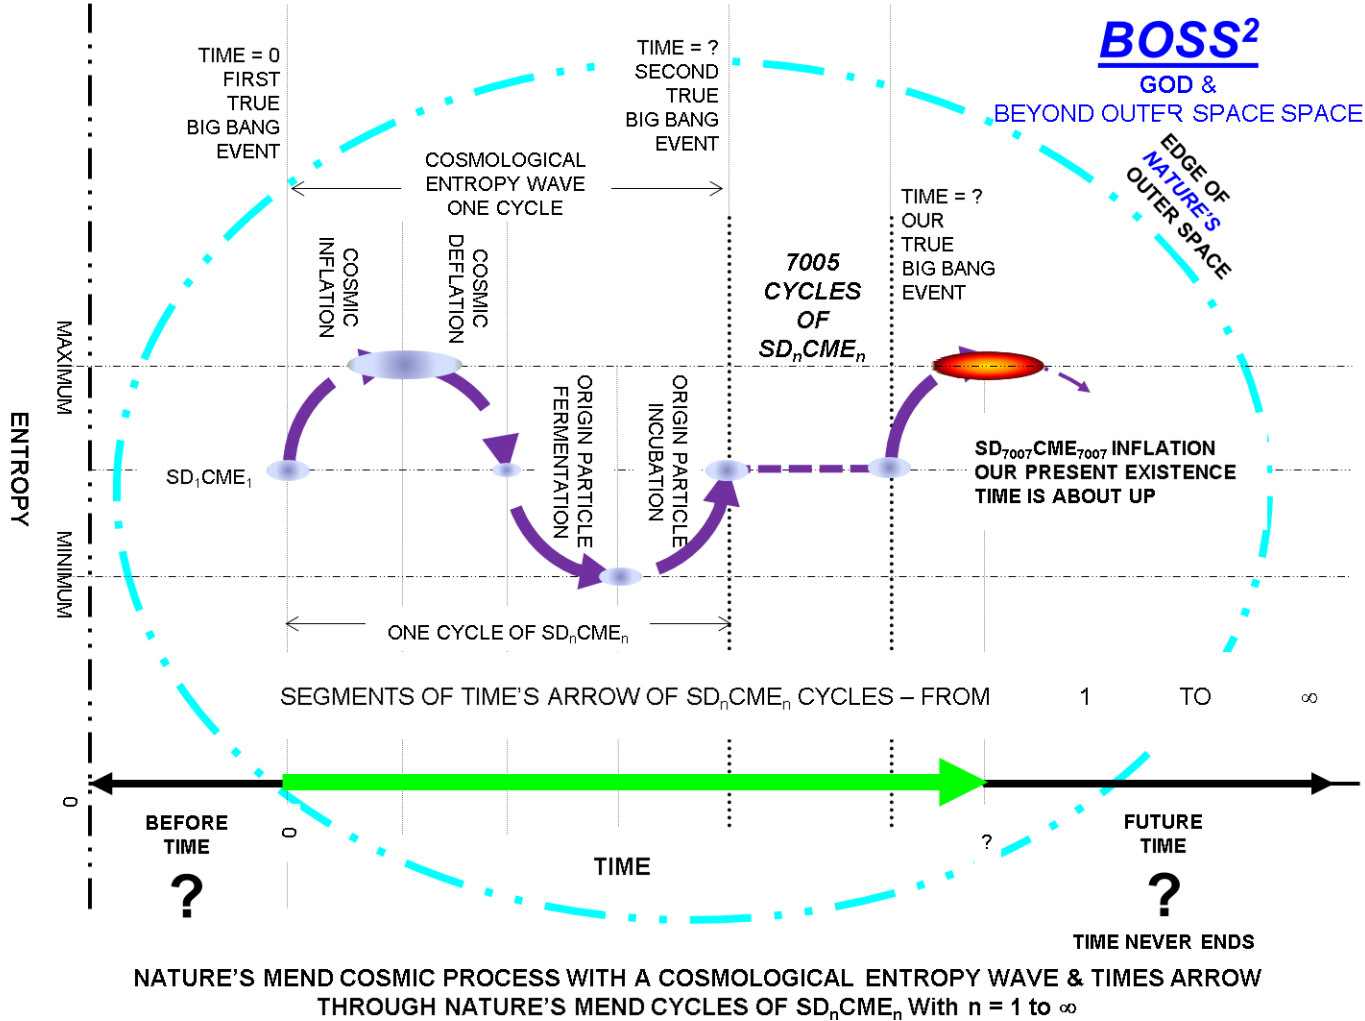

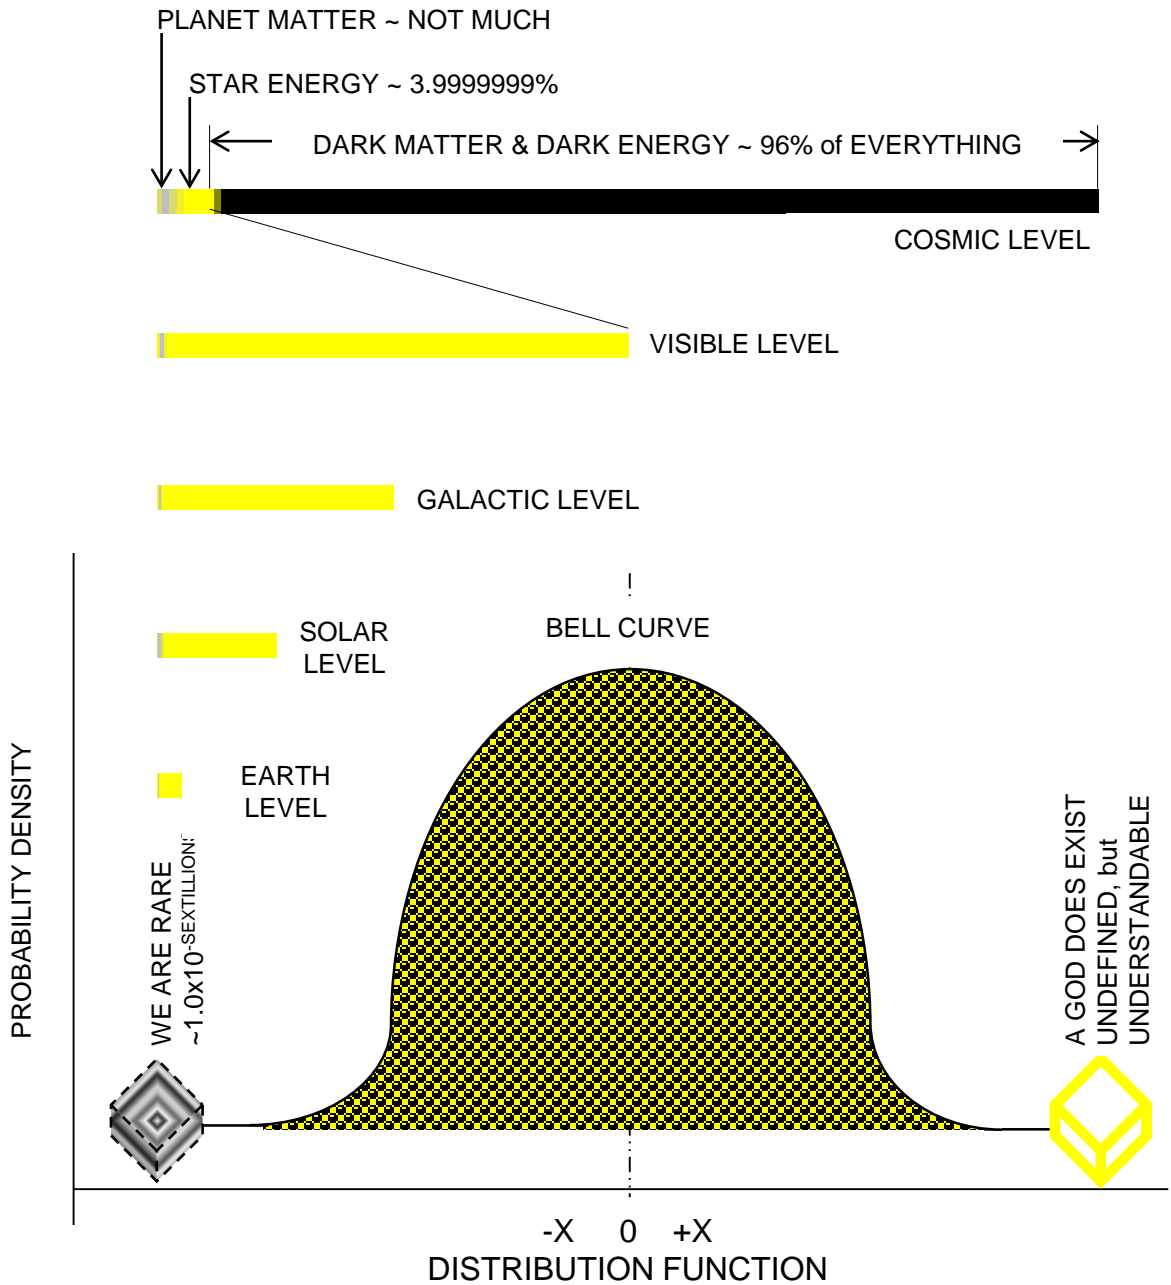

FIGURE E.3

# AND WE'RE BACK TO "OF GOD ?"

- So what can the religion of science reveal to us about GOD?
- We exist does a GOD exist?
- Lets look at an Energy & Matter probability distribution in the COSMOS and two singularities: man & GOD.

# PICTORIAL BAR GRAPH OF EARTH ALONE IN THE COSMOS

## ENERGY & MATTER DISTRIBUTION IN THE COSMOS AND THE RARITY OF man & GOD

Figure 8.23

# EXTRA ANCIENT WRITINGS

- TANAKH Isaiah 53.6: "We all went astray like sheep, each going his own way." RSV very similar.
- RSV Malachi 2.10: "Have we not all one FATHER? Has not ONE GOD created us? Why then are we faithless to one another, profaning the covenant of our FATHER?"
- RSV Zechariah 14.9: "And the LORD will become KING over all the earth; on that day the LORD will be ONE and HIS NAME ONE."
- "If I say to the wicked, 'You shall surely die,' and you give him no warning, nor speak to warn the wicked from his wicked way, in order to save his life, that wicked man shall die in his iniquity; but his blood I will requite at your hand. But if you warn the wicked, and he does not turn from his wickedness, or from his wicked way, he shall die in his iniquity; but you will have saved your life." Ezekiel 3.18 – 19
- "And the WORD of the LORD came to me: 'Son of man, when a land sins against ME by acting faithlessly, and I stretch out MY HAND against it, and break its staff of bread and send famine upon it, and cut off from it man and beast, even if these three men, Noah, Daniel, and Job, were in it, they would deliver but their own lives by their righteousness, says the LORD GOD.' " Ezekiel 14.12 – 14.
- "Let us test and examine our ways, and return to the LORD! Let us lift up our hearts and hands to GOD in heaven:" Lamentations 3.40 – 41.
- My fate – The Gospel of John 15.18 – 16.4 for your review.
- And now a scientific heresy says there is a GOD!

# A HIGHER ENERGY DOES EXIST

- A Special Unique SINGULARITY (Power) (some form of energy and matter) does exist. GOD does exist. 9TH unknown: Is there a GOD is answered with a resounding “YES”!
- So how does this GOD interact with a COSMOS that cycles over and over on TIMES ARROW?
- GOD need not interact at all.
- It gives GOD ULTIMATE GRACE & MERCY.
- For each person that comes to know GOD in each cycle, GOD will remove them from the process and keep them with HIM on the right side of the matter – energy probability curve. For all others they have another chance to come to know GOD in the next cycle. And when Lucifer is the last one left on earth in the Garden looking for Adam & Eve he to will return to GOD. Then the COSMOS will cycle without man.
- The religion of science can answer all questions and provide complete understanding and knowledge we just need to open our minds to new ideas.
- As Solomon said, “Sometimes there is a phenomenon of which they say, ‘Look, this one is new!’ – it occurred long since, in ages that went by before us. The earlier ones are not remembered; so too those that will occur at the very end.” Ecclesiastes 1.10 & 11. Was Solomon speaking of NATURE’S MEND cycles of the COSMOS on an entropy wave?
- By the way my theme song is “CRAZY” by Gnarlz Barkley! Take a look at the lyrics. Open up to new ideas and share around the world.
- Lets have an open and lively discussion of it all!

Matthew McCann Fenton in, "TIME" "Exploring The Unexplained" notes, " *'Truth is stranger than fiction,' Mark Twain once quipped, 'because fiction is obligated to stick to possibilities – truth isn't.'* As was often the case with Twain, this smart-aleck remark was the camouflage that concealed a provocative insight: many times in history the truth has turned out to be a radical departure from what everyone 'knew' to be true. Perhaps that is why important new truths are so often uncovered by fringe figures and outsiders." I know what it means to be on the outside and "CRAZY". Thanks Mark, Gnarl's Barkley [Danger Mouse – Cee-Lo Green], Al, et al. (and others)!

Today we read and/or hear so much about GOD and science and their incompatibility. Yet, when I began and throughout my work on this subject; researching current physics theory and proposed multiple dimensions, branes, bulks, and superstrings I was surprised to learn how much GOD pops up in current physics theories; sometimes offensively and sometimes defensively. If you haven't picked up on it already I will admit HE is going to pop in and out of this work as well.
